

# Rural Development Project of Mountain Areas PDRZM

## International Fund for Agricultural Development IFAD

### OBJECTIVES OF THE PROGRAM

The overall objective of the project is to help reduce poverty and improve rural populations' living conditions in mountain areas.

The specific objective of the program is to strengthen targeted populations to improve their income and resilience to the effects of climate change, through the upgrading of value chains based on the sustainable management of natural resources and the diversification of the local economy.

### INTERVENTION ZONE

The regions of Fès-Meknes and Beni-Mellal-Khenifra in the provinces of Sefrou and Azilal.

### DURATION

Five (5) years from 2015 to 2020

### COMPONENTS OF THE PROGRAM

The project revolves around two components:

- Component 1 : Development and enhancement of agricultural value chains;
- Component 2 : Infrastructure, hydro-agricultural development and sustainable management of natural resources. (This component is co-financed by the GEF).
